EDUCATION

CUNY-Lehman College, New York, NY
B.A in Mathematics, B.S in Computer Science

Expected Graduation: May 2021
GPA: 3.687

TECHNICAL SKILLS

Languages: Java, HTML, CSS | **Tools:** Sublime Text, Eclipse, Git, GitHub WordPress, Visual Studio Code

PROJECTS

- Natours github.com/JonathanR5000/Natours
- Developed a website for a fictional resort tour using advanced methods of CSS, as well as SASS guided by a Udemy course
 - Used advanced methods of CSS to perform animations, and SASS to organized media queries
- Connect Four Game github.com/JonathanR5000/Connect-Four
- Developed a classic 2 player game of Connect 4 as a desktop application written in Java with a GUI using Java's swing package following the MVC Architecture concept, and logging game details to a file for long term storage

EXPERIENCE

- College Work Study** September 2019 – May 2020
Department of Mathematics, CUNY-Lehman College, Bronx, NY
- Demonstrate capacity to provide comprehensive support for department staff, including managing projects and processes in support for better department operations
 - Excellent interpersonal, customer service, leadership, and organization skills; within detail-oriented, deadline driven environment
 - Proficient in Microsoft Office Suite (Word, Excel) and managing, arranging, and coordinating contact information, office hours, and exam schedules

- Peer Success Coach** July 2018 – May 2020
CREAR Futuros Mentoring Program, CUNY-Lehman College, Bronx, NY
- Plan and coordinate individual meetings with a cohort of 12-15 students on a bi-weekly basis, to assist them with any academic, professional, or personal challenges
 - Plan and facilitate monthly workshops for a cohort of 15-25 students per month, about financial, academic, social, and personal development
 - Send emails to mentees about resources/opportunities/events throughout the semester, that can help them academically/financially

- Website Administrator Intern** August 2019 – February 2020
NetsRepublic, New York, NY
- Hired as an intern to update/modify an NBA Nets fan site
 - Improved the sites efficiency by 4% to date, as well as increase the SEO score by 2 points
 - Improved the layout of existing NBA Nets players bio by including existing stories of the NBA player, implementing custom code that includes players NBA stats, social media accounts, and other information
